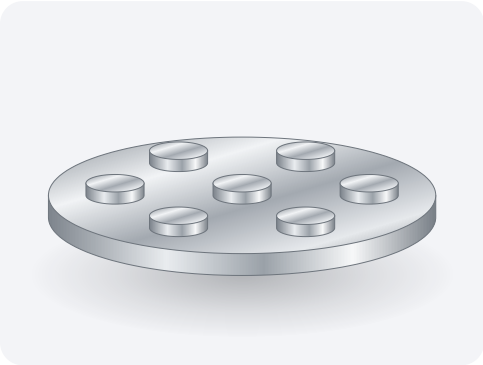
SERIES M12 · SPECIALTY MOUNTS

Pre-tilted, cross-section and multi-stub holders



Mounts that save time and add flexibility: image several samples in one pump-down, look at cross-sections and edges without tilting the stage, or hold thin wafer pieces vertically.

- 45° and 90° pre-tilted stubs for cross-sections and FIB work
- Vice-clamp stubs for wafer pieces up to 5 mm thick
- Multi-stub holders for 6 or 9 pin stubs
- Machined aluminium

CONFIGURATIONS

Ref. No.	Product	Description	Mount	Price
M1201	45° pre-tilted stub	Ø 12.7 mm face at 45°	Pin	On request
M1202	90° stub	Vertical 12 × 10 mm face	Pin	On request
